**SMALL SIZE RUGS**  
FOR EVERY ROOM IN THE HOUSE

Many people prefer small size rugs in the home, because they can be placed in any part of the house, or several in a room, instead of a large art square.

Small rugs can be thrown about and give that added touch of coziness which will make a room look more cheerful. Appropriate patterns and any size will be found here for all rooms in the home, at moderate prices.

# "After that," said the man, "It's not the mule's fault"

**Blame for injury depends on how much chance the victim had to make himself safe.**

**"The first time a mule kicks me," said a wise man, "it's the mule's fault. If it happens again, it's my fault."**

**A good many people are staying within kicking distance of tea or coffee, who have had a chance to know better.**

**They have learned that tea or coffee at night keeps them awake. They know it whips up the nerves. They know what medical opinion has so often said about the effect of the drug element in tea and coffee upon the nervous system—and how indigestion, headaches, high blood pressure and various ills so often follow the use of tea or coffee.**

**Knowing this, they fail to keep out of the way. Where does the blame belong, then, when the final break-down comes?**

**There's safety in Postum, and charm, too. Postum has a full, rich flavor much like that of the better grades of coffee, and it is free from any harmful element whatsoever.**

**Whether or not you've had your warning from tea or coffee, why not step over on the safe side? Why not do what so many others have done—try Postum for ten days, learn how delightful and satisfying it is—and learn how much improvement there can be for you?**

**You can get Postum wherever good food and drink are sold or served, and it only takes a word from you to your grocer or restaurant waiter, to make this move to the safe side, at once.**

**Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.**
